CV **SEMİH KESGİN**
JR.IOS Developer

I will graduate from the Computer Engineering Undergraduate Program at the end of December 2022. Throughout my education life, I tried to improve myself in different projects. I have been involved in areas such as Web Development, Cyber Security, Mobile Applications and Entrepreneurship management activities. I have done one voluntary internship and two compulsory summer internships so far. All of my internships were productive and I gained the knowledge and experience I needed. In my senior year at college, I developed a mobile application as my graduation project using Flutter Framework, Dart Programming Language and Firebase Database Systems. As a freelancer, I have also provided mobile application solutions to my customers using the Flutter framework, developed projects and published applications in digital markets.

June 2022 - August 2022

Intern Pilot

Baykar Technology, Istanbul, TR

I worked in the field of research and development on unmanned aerial vehicles, flight systems within Baykar Technology company.

June 2021 - August 2022

Intern Flutter Developer

Basaksehir Living Lab, TR

I worked in cross-platform application development, user interface design and user experience improvement with Flutter.

October 2021 -

UI Designer

Freelance, TR

Part-time, I supported my undergraduate education by developing user interfaces for mobile devices.

Education
